

### X-3000 "Ago"

Developed and worn by many times world champion, Giacomo Agostini, the "Ago" integral helmet, result of AGV's advanced technology, is the finest motorcycle helmet available. The ultra-lightweight shell is fabricated with eight layers of Corning woven fiberglass impregnated with polyester resin and incorporating additional nylon reinforcement for maximum resilience and penetration resistance. The shell contains a 26mm anatomical liner of special expanded polymer of high shock absorption; the helmet is lined internally with thermic velvet-covered soft padding for the ultimate in comfort. The flip-up visors are in shatterproof GE Lexan. Two are supplied with each helmet, one clear and one smoked.

Available in: Ivory White, Italian Racing Red, International Orange, Jet Black, Dark Metallic Blue, Burgundy Metallic, and Bright Yellow
