

## DIOC NEWS Cont'd. . . . .

Right now I don't have too many plans for Thersday, other than finding a way to keep him from throwing so many fits. I imagine pretty soon he will be old enough to go on tour to the races and do Public Relations work for the Club, you know a few appearances on the Tonight Show, show up at the races and sign a few duckographs. Whatever happens I'll keep you all posted.

### 30 HOUR ENDURANCE RACE

On September 28, 29, 30th WERA will stage a 30 hours long endurance race called the "THIRTY HOURS OF ROCKINGHAM", it is billed as the world's longest and toughest road race. It will be the 1st race of its kind in many many years.

The race is sanctioned by Western Eastern Roadracers Association and promoted and produced by International Racing Association. "Thirty Hours of Rockingham" proves to be the race of the century. There will be Live entertainment, sky divers, van & bike shows.

The race will take place at NORTH CAROLINA MOTOR SPEEDWAY. For more information call or write International Racing Association, Inc., Suite 450, 1130 East Third Street, Charlotte, N.C. 28204- (704) 372 1599. Racers write IRA for entry forms (\$10,000 purse will be awarded)

### DUCATI RACING T-SHIRT BREAKS SALES RECORDS

The Racing Shirt above is our newest addition to the DIOC line of t-shirts and if sales for this bright red, black and white number keeps going the way they are you can be assured of the clubs existence for some time to come. The shirt is printed on both sides and is of high quality. \$5.25 + \$1.25 shpg. and handling and the envelope to ship it in and the label and the time to put it together.... You'll love it, guaranteed.

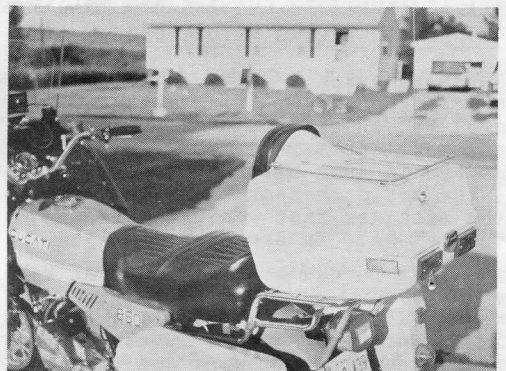

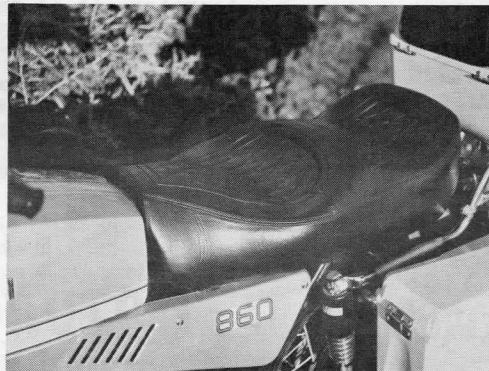

### BERLINER'S RITTER REPLY

After having a talk with Pete Demick of Berliner Motors in New Jersey, I was told that the company's main objective in racing was to promote sales and since they only have a limited budget for this kind of activity that they put the money where they feel they can best results.

Reno Leoni who is their racing director chooses who is going to race for the company and one of the prerequisites is that the racer be based in New Jersey under the watchful eye of Mr. Leoni. Since Paul has his racing headquarters so to speak in California another problem existed, not only due to the distance involved plus the fact the Mr. Ritter had his own mechanic and machine. Under the company's guide lines Mr. Leoni has the last say on this matter and he alone chooses the machine and the matter under which it is prepared and raced.

### MISS DIOC CONTEST

Here we go again, the Miss DIOC contest has been extended for another two months from 7/79- August 15th. So before you use up all the film left in your camera, take a couple of shots of yourself if you are a lady, or have one taken of you or whatever, you know what I mean anyway, and mail the darn thing in before August 15th. Like I said before, as long as it has a Ducati in the photo anything goes. See the 16th issue for all the details. Well gotta go now, ya'll have a nice summer
