

RACING

This year's Daytona ProAm was really a thriller in all classes. Too bad you missed it. The twin race was especially thrilling for us because we won the final event of the year after finishing with 2nd places and 1 third place finish at Pocono.

To best describe the race it went as follows, Jim Adamo opened up a 2 second lead in the early laps just ahead of a five machine war behind. Malcolme on our Ducati, John Long BMW, Hal Coleman H-D, Dave Roper H-D, Bob Lill GT Racing Ducati swapped places at least a dozen times for the first half of the race. John and Malcolme finally broke loose and started to catch a slowing Berliner Ducati.

Malcolme and John finally passed Jimmy on the sixth lap so John and Malcolme were drafting and passing each other for the lead. On the last lap Malcolme out braked John's BMW and won the race. John was second with Jimmy third. Bob Lill's Ducati had an engine failure at the midway point and Dave Roper stopped to check just how much oil he was leaking and blowing all over himself and the track as did Hal Coleman's H-D, Dave finished 4th place with Jerry Dean on a fast Ducati finished 5th.

Hope to see you in March, Syd, Syd's Cycles, 6600 Haines Road, St. Petersburg, FL 33702 (813)522-3333

DUCATI TOURING TANK

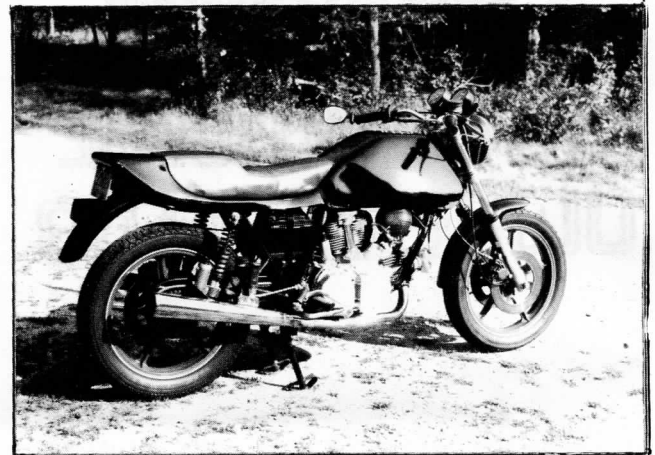

Tired of stopping for gas every 100 miles?
Too far between high test gas stations?
Does Doubling your cruising range sound good?

Then here it is!!!

7 Gallon Ducati Touring Tank
Constructed of 502 Fiberglass Matt, 5oz. Kevlar #49,
and 6oz. Fiberglass cloth.

This custom tank will retain and improve the sport
look without adding a bulky appearance.

Specifically designed to fit Darmah's, but can be
ordered with a different base so it can be adapted
to fit most models. Sorry, no clip-ons.

Truly an Italian style tank!
Also available: Ducati SS style front fenders of
regular fiberglass or Kevlar-construction
available.

*Rain Gear-custom made, compact, light weight,
available in red, navy or green; s,m,l,xl,
jacket & pants.
