MY DUCATI PARTS & SHOP MANUAL COLLECTION (SINGLES)

BY CHRIS MILLER

I enclosed a list of the old manuals/parts books that I have. I can't imagine that you would want to copy all of them or even any of them but should a member in Des Moines or some other place own a 175 Turismo and want to know what oversize valve guides come in (.02, .09 & .14mm) if he would write me a letter I'd tell him. Be sure to send S.A.S.E.! Anyhow I'm not interested in selling this stuff but I'd like to make the information available to anyone interested so you can list it in the Newsletter with those conditions if you would like. Send any inquiries to:
